## MAINTENANCE WITH JAMES

We would like to share our experience and give you some advice to add the durability of your beautiful carpet.

Most carpets retain some loose fibres after they leave the mill due to the use of natural materials. These fibres often appear as loose yarns or balls of fluff on the surface of your carpet. You can carefully remove these yarns with scissors.

Vacuum your carpet frequently to keep it dust free.

Do you need help?

Together with James we tested all our products on durability and quality to give you the best advice as possible. For questions visit [james.eu](http://james.eu)

All carpets in our Devotion collection are unique, minor variations in colour, size and shape are possible.

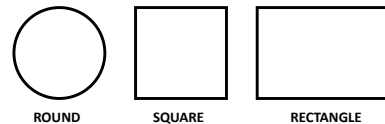

## NON-SKID

Non – skid is recommended for every carpet preventing slippage and ensuring that the rug stays safely secure.

## SSP

Your carpet can be made in almost every size.
